30 October 1986

MEMORANDUM FOR: Deputy Director for Administration

FROM:

[redacted]

Director of Security

25X1

SUBJECT: Office of Security Significant Activities
Week of 23 - 29 October 1986

1. This memorandum is for information only.

1. The activities of the Office of Security (OS) during the week of 23 - 29 October 1986 were highlighted by the following items:

*a. There are [redacted] Security Protective Officers (SPO's) presently on duty and [redacted] personnel who will enter on duty in early November 1986. An additional [redacted] SPO candidates are in processing, including [redacted] who have successfully completed polygraph testing.

25X1

25X1

*b. The new Headquarters badging system (PASS), has been installed at the Northwest entrance and is operational.

*c. An OS representative is attending a one-week training session on Executive Protection at a commercial school in Berryville, Va. The intent is to assess the value of the course for future utilization by OS in providing the most effective training methods for DCI Protective Staff personnel.

*d. The Deputy Director of Physical & Technical Security presented an overview of government-wide TSCM programs, issues, and concerns to the National Telecommunications & Information System Security Committee (NTISSC) Subcommittee on Telecommunications Security (STS). The briefing was well received by the STS.

25X1

S E C R E T

25X1

*f. OS and OL have begun a coordinated study to determine preliminary design concepts and associated costs for a Security Inspection Station at Headquarters and the [REDACTED]

25X1

[REDACTED] This study will continue for approximately six months and is intended to identify package inspection and handling technologies to protect against explosives or other terrorist devices entering Agency facilities.

25X1

g. Two OS personnel attended the Security Educators Seminar at the FBI Academy, Quantico, Va., during the week of 20-24 October. The seminar, commissioned to devise methods to improve security awareness within the community was sponsored by the Security Education Subcommittee under the Interagency Group/Countermeasures (Policy) and was attended by representatives from a wide spectrum of the Intelligence Community including NSA, DOS, FBI and DOD.

25X1

i. OS has coordinated with OTS for the manufacture of Floppy Diskette Drive Card Inserts which will aide in the conduct of close-of-business security checks. These inserts will be plastic and have the word SECURE printed on the tab so that it is clearly visible when inserted into the disk drive. These inserts will be made available in supply rooms.

j. On 23 October, OS representatives attended a meeting of the Overseas Security Policy Group at State Department. The agenda included presentations on Interpol, the new Residential Security/Local Guard Division of the Diplomatic Security Service, and physical security standards for both classified and unclassified computer systems at overseas posts.

MEMORANDUM FOR: Chief, Policy and Plans Staff

FROM:

Chief, Policy and Support Staff, PTS

25X1

SUBJECT: PTS Items for the DDA Weekly Log

1. During the reporting period DD/PTS presented an overview of government-wide TSCM programs, issues and concerns to NTISSC's Subcommittee on Telecommunications Security. Also outlined were the Technical Surveillance Countermeasures Committee's organizational structure and its plans in the TSCM area. The briefing was very well received by the STS.

2. Security Protective Officers recently entered on duty which brings the present strength of our Security Protective Service to . There are currently an additional SP0 candidates in applicant processing; have completed their polygraph testing and will begin the EOD process in the near future.

25X1

25X1
25X1

3. Headquarters Security Division is currently providing thirty escorts a day for the project. This is five more than were scheduled for this operation.

25X1

4. The new security access system -- PASS -- has been installed at the Northwest Entrance of the Headquarters Building and is operational.

5. On 23 October DC/PSAD and C/PSG attended the monthly meeting of the Overseas Security Policy Group at State Department. The agenda included presentations on Interpol, the new Residential Security/Local Guard Division of the Diplomatic Security Service, and physical security standards for both classified and unclassified computer systems at overseas posts.

25X1

S E C R E T

S E C R E T

25X1 6. On 24 October the Engineering and Analysis Group began a coordinated study with OL to identify preliminary design concepts and associated costs for a Security Inspection Station at Headquarters [redacted] This study will continue approximately six months and is intended to identify package inspection and handling technologies to protect against explosives or other terrorist devices entering Agency facilities.

25X1 [redacted]

8. During this reporting period a member of ISSD provided application programming support to the Office of Finance to integrate the Signature Verification System into one of their funds disbursement programs. The application will now require authorized OF users to verify their identity to the funds disbursement application before they are allowed to sign the disbursement transaction. This application of Signature Verification represents another step in the Agency's test of this technology.

9. The Information Systems Security Division has arranged with OTS for the manufacture of Floppy Diskette Drive Card Inserts which will aid in the conduct of close-of-business security checks. These inserts will be plastic and have the word SECURE printed on the tab that is clearly visible when inserted into the disk drive. These inserts will be available in supply rooms.

10. The Information Systems Security Division has been asked to contribute to the COMIREX system architecture plan, "CAMS FOR THE 90'S." This document represents the first Agency plan to specify a trusted secure system. ISSD will prepare the technical requirements to satisfy the criteria, which requires structured protection through discretionary and mandatory access controls through the ADP system.
